Housing Personal Safety

S IU is committed to fostering an environment in which all members of our campus community are safe, secure, and free from sexual misconduct of any form, including but not limited to, sexual assault, dating violence, domestic violence, and stalking. These standards apply to all regardless of gender, sexual orientation, or gender identity of any of the individuals involved.

REPORT incidents to the Department of Public Safety, the Title IX Coordinator, and/or Student Rights and Responsibilities. All University employees are obligated to report sexual misconduct of which they become aware, unless they have a legally recognized confidentiality privilege such as physicians and counselors. Although the University strongly encourages all members of its community to report violations of this policy to law enforcement, it is the victim's choice whether or not to make such a report.

RESOURCES are available to the victims of sexual assault, dating violence, domestic violence, and/or stalking through the Department of Public Safety, University Health Center, Psychological and Counseling Center, or any SIU Campus Security Authority. Victims should consider seeking medical attention and/or law enforcement assistance as soon as possible.

PREVENT attacks by using the Brightway Path, the Night Safety Transit or the Safe Walk App at night. Take a self defense class and learn ways to defend yourself. Always know real names, addresses, and phone numbers of who you are dating. Tell a trusted friend or family member when and where you are going on a date so someone knows your location. If you feel unsafe at any time— trust your gut and leave!

You are outside with no shelter?

- Immediately get into a vehicle, buckle your seat belt, and try to drive to the closest sturdy shelter.
- Take cover in a stationary vehicle. Put the seat belt on and cover your head with your arms and a blanket, coat, or other cushion if possible.
- Lie in an area noticeably lower than the level of the roadway and cover your head with your arms and a blanket, coat, or other cushion if possible.

In all situations: Do not get under an overpass or bridge. You are safer in a low, flat location.

You are in a structure (e.g. residence, small building, school, or high-rise building)

- Go to a pre-designated area such as a safe room, basement, storm cellar, or the lowest building level. If there is no basement, go to the center of a small interior room on the lowest level (closet, interior hallway) away from corners, windows, doors, and outside walls. Put as many walls as possible between you and the outside. Get under a sturdy table and use your arms to protect your head and neck.
- In a high-rise building, go to a small interior room or hallway on the lowest floor possible.
- Put on sturdy shoes.
- Do not open windows.
