# SEVERE WEATHER PREPAREDNESS: TORNADOS

## **Watches and Warnings**

- A severe weather watch means that conditions are right for severe weather to occur during the watch period.
- A severe weather warning means severe weather is imminent. Seek shelter right now.

### **You are outside with no shelter**

- Immediately get into a vehicle, buckle your seat belt, and try to drive to the closest sturdy shelter.
- Take cover in a stationary vehicle. Put the seat belt on and cover your head with your arms and a blanket, coat, or other cushion if possible.
- Lie in an area noticeably lower than the level of the roadway and cover your head with your arms and a blanket, coat, or other cushion if possible.
- Do not get under an overpass or bridge. You are safer in a low, flat location.

### **You are in a structure (e.g. residence, small building, school, or high-rise building)**

- Go to a pre-designated area such as a safe room, basement, storm cellar, or the lowest building level. If there is no basement, go to the center of a small interior room on the lowest level (closet, interior hallway) away from corners, windows, doors, and outside walls. Put as many walls as possible between you and the outside. Get under a sturdy table and use your arms to protect your head and neck.
- In a high-rise building, go to a small interior room or hallway on the lowest floor possible.
- Put on sturdy shoes.
- Do not open windows.

To receive alerts via text message or at a non-siu.edu email address, you must make sure your information is in the system.
