SAFETY ONLINE

The Internet was built for sharing, not for anonymity or security. Be familiar with each website's privacy and security settings. There are billions of people online but, how many of them do you want to know where you live, where you work, or who your family and friends are. You can try and maintain a degree of privacy, but ultimately what you do online is similar to what you do in public like driving in your car or walking through campus. Below are some tips for staying safe online:

- ⇒ Do not post anything you would not be comfortable explaining in the future.
- ⇒ Keep personal and work/organization/department accounts separate. Use separate email addresses, phone numbers, and devices, if possible.
- ⇒ Don't accept friend requests from strangers. When available, use features that limit who may send a friend request or see your profile.
- ⇒ Use two-factor authentication whenever possible.
- ⇒ Don't post your travel plans where people who want to find you (e.g. stalkers) or people who want to avoid you (e.g. burglars) will see them.
- ⇒ Don't identify where you work on a personal account: your friends and family already know, and strangers don't need to know.

WEATHER PREPAREDNESS 101

Winter weather is upon us, and living in Illinois brings with it various weather patterns. It is not unlikely to have seasonably warm days in January, followed by heavy rain, and possible tornadoes. Did I mention ice and snow tend to fall during the first few months of the new year? So what do all the weather words the forecasters use mean. . .

WARNING

A warning is issued when a hazardous weather event is occurring, imminent or likely to occur. A warning means weather conditions pose a threat to life or property. Those in the path of the storm need to take protective actions.

WATCH

A watch is when the risk of a hazardous weather event has increased significantly, but its occurrence, location or timing is still uncertain. A watch means the weather is possible, and people in the path should have a plan of action in case the storm threatens their locations.

ADVISORY

An advisory is issued when a hazardous weather event is occurring, imminent or likely to occur. Advisories are issued for less serious conditions than warnings, these events may cause a significant inconvenience on those in the path. Caution should still be taken.

OUTLOOK

An outlook is issued when a hazardous weather event is possible in the next week. Outlooks are intended to raise awareness of the potential for significant weather.

Car Tips for Winter Driving Cold Weather Safety

It's peak season for traveling, and for some that means heading out for a trip on wintery roads. Don't let your trip be ruined by car problems, instead use these tips for winter driving safety. Below are six simple tips to get your car ready for cold weather

1. **Add Antifreeze** Antifreeze can help protect your engine from extreme temperatures and will help keep fluids from freezing as the cold sets in.
2. **Check Tire Pressures** When temperatures fall, air inside tires contracts and causes the pressure inside to drop, which can make tires susceptible to damage.
3. **Change Oil** Colder temperatures can cause motor oil to thicken, which can cause starting problems. Change your oil just before winter to help keep oil flowing easily through your engine to help your car start easier.
4. **Wash and Wax** Washing and applying a fresh coat of wax before fluctuating temperatures can be the first line of defense against ice, salt, and slush. Visiting a car wash with an under carriage washer is also a great way to keep the under belly of your car clean and help avoid rusting and help maintain the overall value of your car.
5. **Replace wipers** It is important to have properly fitted wiper blades to help keep your windshield clear when driving in bad weather conditions.
6. **Pack an Emergency Kit** To help ensure safe travel and be prepared for emergency situations, keep these essential items in your vehicle: gloves, ice scrapper, shovel, salt or sand, warm clothes and a blanket, jumper cables, emergency signals (flares/road flags) and a first aid kit.

CRIME OR INCIDENT REPORTING

There are several reporting options available for victims of crime. Criminal incidents including, but not limited to theft, burglary and drug or alcohol use should be reported to law enforcement. For incidents of sexual assault, dating violence, domestic violence and stalking, individuals have additional reporting options.

If it's an emergency, dial 911 for immediate assistance and view the quick reference guide.

Some individuals may pursue justice through the legal system, while others are interested in personal restoration. The options for reporting sexual assault, dating violence, domestic violence and stalking are available at any time, although reporting is encouraged as soon as possible following an incident. You are not required to select just one option – you may choose multiple options because each option may offer a different type of resolution. The links below will help to identify the options that best meet your needs.
