Theft Prevention

How to Lock Your Bike

- *Always lock your bike's frame and wheels with a high-quality, modern U-lock.
- *Remove all detachable items—lights, bags, quick-release parts—and take them with you.
- *Lock to a bike rack. These are the most secure places.
- *See locking diagrams below.

Method 1 locks the front wheel and frame. Use a cable to secure the rear wheel.

Method 2 locks the quick release front wheel alongside the frame and rear wheel.

Shows bike with u-lock securing rear wheel and cable securing front wheel.

More Tips

- *Record your bike's serial number. Get a photo of you with your unlocked bike. Keep the sales receipt. All will help you identify the bike if it is stolen.
- *Always lock your bike, even if you're leaving it for only a moment
- *If your bike has quick-release wheels, always lock through the frame and a wheel. Add a cable, cable lock or second U-lock to secure the second wheel. See diagrams above.
- *Buy the most expensive lock you can afford. U-locks are strong, and better ones come with theft warranties.
- *Beware of locking to "sucker poles" that are loosely bolted down and can easily be removed.
- *Avoid locking to private property.
- *A lock is only a deterrent when used properly

If Your Bike Is Stolen

- *File a theft report with the SIU Department of Public Safety by calling 618-453-3771.
- *If the police recover your bike, it's beneficial if you previously registered your bike
